PROFESSIONAL SUMMARY

A passionate fresher who completed a 4-month internship at Cognizant, where I built and delivered real-world web applications from scratch. I enjoy solving problems by writing clean code on both the website side and the server side. Quick learner, team player, and eager to grow in a professional environment.

TECHNICAL SKILLS

Languages	Java (Core, OOP, Collections), TypeScript, HTML5, CSS3
Frontend	Angular 21, RxJS, Reactive Forms, Angular Material
Backend	Spring Boot, Spring Security, Spring Data JPA, RESTful APIs, JWT
Microservices	Spring Cloud Gateway, Netflix Eureka, Resilience4j Circuit Breaker
Database	MySQL (CRUD, Joins, Stored Procedures), Hibernate ORM
Tools	Git, GitHub, IntelliJ IDEA, VS Code, Maven, Postman

EXPERIENCE

Java Full Stack Intern — Cognizant Technology Solutions

Feb 2026 – Jun 2026 | Chennai

- Developed backend services using Spring Boot with secure login and role-based access control — ensuring only the right users can access the right features.
- Built user-friendly web interfaces using Angular 21, connecting them to backend services so users could view, create, and manage data smoothly.
- Worked as part of a 5-member Agile team — attending daily stand-ups, reviewing each other's code, and managing work through Git and GitHub.

PROJECTS

EnergyGrid Management System

Primary Project

Angular 21 | Spring Boot | MySQL | Spring Cloud | JWT | Resilience4j

- Built a complete web application for managing a power grid company — covering assets, work orders, outages, billing, and scheduling — using Angular 21 and 11 backend services.
- Secured the application with login tokens (JWT) and role-based permissions for 6 types of users, and added file upload with tamper-detection (SHA-256 hashing).
- Designed the backend to stay functional even if one service fails, using Spring Cloud Gateway, Netflix Eureka, and Resilience4j Circuit Breaker.

Gym Membership Management System

Backend Project

Java | Spring Boot | MySQL

- Built a backend system to manage gym members, trainers, and subscription plans — with add, update, delete, and search features, clean code structure, and data validation.

EDUCATION

B.E. — Electronics and Communication Engineering

Panimalar Engineering College, Chennai

2022 – 2026 | CGPA: 9.29
